Subject: Re: draft request for additional information related to environmental review

Mr. Kohn,
 Thank you for your response to our first request. With regards to the second request, we will attempt to contact Mr. Schlapak directly, however, please be aware that a timely response is ultimately your responsibility. Delays in receiving the information will ultimately delay the Center's aircraft crash hazard analysis and the NRC's environmental assessment. Please keep me informed as to the status of your requests to the airport and I will do the same so as to avoid duplication of work effort. Please let me know if you have any questions or concerns.

Dear Matt Blevins, Answer to your question #1. The proposed facility has the following dimensions:Length some 64'0"Width some 116'0"Roof height at its highest point some 29'6"Roof height at its lowest point some 24'0" The actual irradiator room has the following dimensions:Length some 30'0"Width some 42'8"Ceiling height at its highest point some 28'10" Please find attached four layouts as per your request. Answer to your questions #2 and #3. I have tried to contact Ben Schlapak, the Airport District Manager to assist in answering your specific questions. So far I have not heard back from him. I assume he has been quite busy after an earth quake Sunday a week ago shut off the power supply to the airport. In the past Mr. Schlapak has been very helpful with airport related questions. I suggest you contact him directly.Tel: (808) 836-6533e-mail: ben.schlapak@Hawaii.gov Please let me know if you have further questions. Sincerely, Michael KohnPa`ina Hawaii

 Mr. Kohn,
 Attached is a draft version of the requests for additional information.
 They should be signed out and mailed to you formally sometime next week.
 I will call to discuss with you early next week to make sure the requests are clear. Thanks
 Matt
