SUBJECT: US Nuclear Regulatory Commission (NRC) Consolidated License
Application

Commander
US Army Materiel Command
ATTN: AMCSF-P
5001 Eisenhower Avenue
Alexandria, Virginia 22333-0001

The enclosed US Nuclear Regulatory Commission (NRC) Application for Materials License submitted by this headquarters represents a consolidation of seven NRC licenses currently issued to this command, in addition to one newly procured and three transitioned radioactive commodities/materials. Upon receipt of a consolidated license by the NRC, all the individual NRC licenses issued for the above commodities/materials will be terminated. The only commodity contained within this consolidated license application which has not previously been issued an NRC license is the Amersham Corporation Americium-241 Variable Energy X-ray Source. The enclosed application represents an effort by this command to include all the above licenses/commodities under one consolidated license.
