Director
Nuclear Material Safety
and Safeguards
ATTN: Radioisotopes Licensing Branch
US Nuclear Regulatory Commission
WASH DC 20555

Gentlemen:

Forwarded is US Army Communication-Electronics Command request for a six month extension of the expiration date of Byproduct Material License Number 29-01022-08. This extension is needed to get information from the manufacturer regarding radioactive source specifications and documentation from the contractor providing theoretical dosimetric evaluation for AN/UDM-2 Radiac Calibrator Set.

Please acknowledge receipt of correspondence on enclosed DA Form 209, Mail Reply Card.

Sincerely,

DARWIN N. TARAS
Chief, Health Physics,
Safety Office
