Exp 2/28/78

Gentlemen:

Due to attendant difficulties in US Army Electronics Command coordinating application for renewal of Source Material License Number SUB 1150 with other affected Army elements, this headquarters requests a three-months extension of the expiration date of Source Material License Number SUB 1150.

It is our understanding that the renewal application is prepared, but its arrival at this headquarters will be too late for this headquarters to review and coordinate the application with other Army elements prior to expiration date. A three-months extension of this expiration date would enable this headquarters to effectively coordinate application.

Please acknowledge receipt of correspondence on inclosed NRC-46 Reply Card (Incl 1).

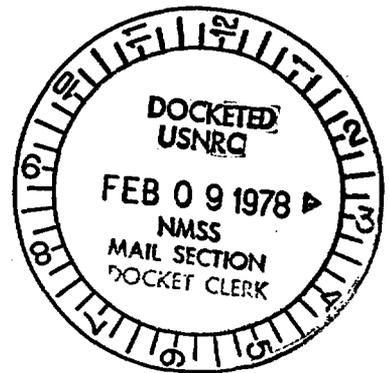

Sincerely,

DARWIN N. TARAS  
Chief, Health Physics  
Safety Office
