Indian Point Energy Center Status Report

September 12, 2006

Operational Status

Indian Point Unit 2 is currently operating at 100% power and has been on line for 20 days.

Indian Point 3 is operating at 100% and has been on line for 53 days.

Siren Test on September 13

Entergy will conduct a full-volume test of the Indian Point emergency alert notification sirens in Westchester, Rockland, Orange and Putnam counties on Wednesday, Sept. 13 between 7 p.m. and 8 p.m. WHUD Radio (100.7 FM) will perform a test of the Emergency Alert System immediately following the siren test.

During the test, all 156 sirens will sound simultaneously for about four minutes. The sirens will start at low volume and rapidly rise to full volume.

No Response on the part of the public is necessary

During an emergency at Indian Point, the counties sound all 156 sirens simultaneously for four minutes at full volume, alerting the public to tune to their local Emergency Alert System (EAS) radio or TV station for important information. Sounding the sirens is a signal for residents to listen to Emergency Alert System broadcasts for important information.

Entergy has sent media advisories to the local media including TV News Channel 12, local cable access networks and community bulletin boards.

Work continues on the phase 2A monitoring wells. Pictured at left is MW-2, a 200-foot deep well located on the riverfront near the Unit 1 intake structure. Three additional wells are being constructed along the riverfront to help characterize groundwater flow on site.

Educational Outreach

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups, and civic organizations. The topics we cover include Emergency Planning, Understanding Radiation, Nuclear Fuel and a general overview of the operations of Indian Point Energy Center. If you would like a brochure or are interested in scheduling a program, contact IPEC Communications at 914-271-7441.

If you have any questions or need clarification of the information provided, please contact Kathy McMullin, manager of communications, Indian Point Energy Center, at 914-271-7132.
