Subject: Withdrawal of Inservice Inspection Relief Request SC-I3-RR-A14

References: 1) PSEG letter LR-N04-0473, "Relief Request SC-13-RR-A14  
Synchronization of Salem Units 1 and 2 ISI Programs Ten-Year  
Inservice Inspection Intervals," October 31, 2005

In Reference 1, PSEG Nuclear LLC (PSEG) proposed an alternative to the requirements of 10 CFR 50.55a(g)(4)(ii) and American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code Section XI to align the date for commencing the Unit 1 fourth Ten-Year Inservice Inspection Interval with Unit 2.

After discussion with the NRC staff, PSEG has decided to withdraw the request in Reference 1 and may submit a revised request at a later date.

If you have any questions or require additional information, please contact Paul Duke at 856-339-1466.
