AREA 31 FOR SURVEY AND REMEDIATION

Dear Ms. Graham:

Enclosed is NRC License Amendment No. 45, amending your NRC Source Material license SUC-1380, as requested in your letter dated August 15, 2006. The NRC staff has reviewed your final status survey plan and found it acceptable. This also refers to our conversation with Mr. Mike Syvaert of your office on October 31, 2006, who approved incorporation of the "Area 31 Final Status Survey Work Plan," into your license. Additionally, we plan on being on-site to observe the survey and remediation activities, and will appreciate prompt notification of any changes in the scheduled work activities.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
