Subject: Radiation Safety Officer, License Number 53-29072-01

Dear Ms. Mernahan,

I would like to take this opportunity to inform the NRC that Yamada and Sons, Inc. has a new Radiation Safety Officer (RSO).

The two acting Radiation Safety Officers, Jason Pedersen and Nahum Miller are still certified users of the nuclear equipment, but will no longer be acting as RSO's. They both have completed the basic CPN training course on Radiation Safety and Use of Nuclear Gauges of which you currently have their certificates. These were sent to you previously.

I, Christopher Farley, attended the training for RSO that I informed you of in my previous correspondence. Along with this letter, I have enclosed a copy of each certificate that I received for my successful completion of each course.

Please use this letter to serve as notice that our need for a Radiation Safety Officer has been filled. Thank you for your patience in this matter.

If there are any questions or concerns please contact me at 1-808-933-8484.

Sincerely,

Chris Farley
