Subject: Docket No. 62-007-ESP, ASLBP No. 04-821-01-ESP

To Whom it May Concern,

I am writing to state my opposition to nuclear power and more specifically asking that you do not approve another nuclear power plant in Clinton, Illinois. The state already has 11 operating nuclear reactors, more than ANY other state in the USA. There is no such thing as "safe" nuclear power. Another power plant further endangers my health and well-being, as well as that of my friends, neighbors, and the surrounding community. Additionally the pollution to the earth and its waters is irreversible. Nuclear waste poisons the earth for the rest of its (and our) existence. I am not willing to live with the idea of a radioactive planet no longer inhabitable by human beings or animals. This is the future nuclear power creates, both for ourselves and for generations to come. Funds spent on nuclear power are funds not available for safe, renewable energy sources. It would be much wiser to spend our money developing these resources at such a scale that they would be affordable for all, as well as to develop a supporting infrastructure to facilitate their availability.

Sincerely,
Kathleen A. McGrane
