Southern Nuclear Operating Company
Vogtle Early Site Permit Application - Revision 1

Ladies and Gentlemen:

On August 14, 2006, Southern Nuclear Operating Company (SNC) submitted an application to the U.S. Nuclear Regulatory Commission (NRC) requesting an Early Site Permit (ESP) for two additional reactor plants at the Vogtle Electric Generating Plant (VEGP) site near Waynesboro, Georgia. The application was submitted in accordance with Part 52, Subpart A of Title 10 of the Code of Federal Regulations. On September 19, 2006, the NRC notified SNC of its acceptance of the Vogtle ESP Application and commencement of its detailed technical/environmental review of the application. Subsequently, SNC elected to modify the orientation of the proposed new reactor plants' layout as described in the ESP application. This modification brings the orientation of the proposed new VEGP reactor plants in conformance with the orientation proposed by other nuclear utilities who are considering construction of multiple new reactor plants of the same type proposed in Vogtle ESP Application. The orientation change involves rotating the proposed new reactor plants' layout 90 degrees from their current orientation. A slight relocation on the VEGP site is also necessary to achieve this reactor plant orientation change.

SNC has revised the ESP application to incorporate the change in orientation and location of the proposed new VEGP reactor plants as well as other administrative and editorial changes. This revision (i.e., Revision 1) also includes the ESP application supplements provided to the NRC by letters dated September 6 and September 13, 2006, on Application Part 2, *Site Safety Analysis Report*, Sections 2.2 and 2.5.2, respectively. In addition, Application Part 3, *Environmental Report*, Sections 1.1 and 2.8 were modified to clarify the purpose and need section to ensure consistency with new Part 52 requirements relative to environmental work at the combined license (COL) stage. A summary of the Revision 1 changes is provided in Enclosure 2.

As noted in our August 14, 2006 submittal letter, there is a limited amount of owner proprietary and sensitive information contained in Chapters 8 and 10 of the ESP application's Environmental Report. This information has not changed in Revision 1. SNC again requests that this information be withheld from public disclosure (i.e., non-publicly available), in accordance with

D078

10 CFR 2.390(b). In addition, SNC requests a waiver of the affidavit requirement for original affidavits, in accordance with 10 CFR 2.390(b)(1)(ii), on the grounds that the original affidavits supporting a request for withholding of the information are already on file with the NRC. Enclosure 1 contains a copy of the affidavits for withholding that was submitted with our August 14, 2006 submittal letter in accordance with 10 CFR 2.390.

Electronic versions (i.e., compact discs [CDs]) of both the publicly available and the non-publicly available versions are provided as Enclosures 3 and 4, respectively, and have been prepared to NRC specifications for electronic submittals. The publicly available and non-publicly available CDs are each complete versions of the revised (Revision 1) ESP application. The Revision 1 ESP application CD replaces the original Revision 0 ESP application. In addition, by copy of this letter, forty (40) copies of the non-publicly available revised ESP application on CD, thirty (30) copies of the publicly available revised ESP application on CD and four (4) hard copies of the non-publicly available revised ESP application pages (changed pages only) are being provided to the NRC Vogtle ESP Project Manager. Instructions for inserting the changed hard copy pages into the original ESP application are included with the Revision 1 hard copies.

The SNC licensing contact for this revised application is J. T. Davis at (205) 992-7692.

This revised ESP application does not contain restricted data or other defense information that requires separation from the unclassified information in accordance with 10 CFR 50.33(j) pursuant to 10 CFR 52.17(a)(1).

Respectfully submitted,

SOUTHERN NUCLEAR OPERATING COMPANY

Joseph A. (Buzz) Miller

Enclosure 1

Affidavits for Withholding

from

August 14, 2006 Submittal Letter

AFFIDAVIT OF OSCAR HARPER

I, Oscar C. Harper IV, Vice President, Resource Planning and Nuclear Development of Georgia Power Company ("Georgia Power") state that:

1. I am authorized to execute this affidavit on behalf of Georgia Power.
2. Georgia Power is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) and fuel needs data (as indicated in Chapter 10 of the Environmental Report, Section 10.4.1)(the "Information"). The Information is proprietary, trade secret, and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by Georgia Power.
 - b. The Information is of a type that is held in confidence by Georgia Power and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning Georgia Power's need for power data, reserve margin and fuel needs.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of Georgia Power by disclosing its need for power data, reserve margin and fuel needs data to other parties whose commercial interests may be adverse to those of Georgia Power.
3. The Information is the type of data that Georgia Power protects in its filings with the Georgia Public Service Commission in accordance with such Commission's practice for protecting such information. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3)

otherwise compromise Georgia Power's ability to procure the best cost resources from the energy marketplace. Southern Nuclear Operating Company ("SNC"), working on behalf of the owners, has limited the access to the Information to those SNC individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, Georgia Power requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

AFFIDAVIT OF MICHAEL W. PRICE

I, Michael W. Price, Chief Operating Officer, of Oglethorpe Power Corporation (An Electric Membership Corporation) ("Oglethorpe") state that:

1. I am authorized to execute this affidavit on behalf of Oglethorpe.
2. Oglethorpe is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) (the "Information"). The Information is proprietary, trade secret and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by Oglethorpe.
 - b. The Information is of a type that is held in confidence by Oglethorpe and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning Oglethorpe's need for power data and reserve margin.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of Oglethorpe by disclosing its need for power data and reserve margin to other parties whose commercial interests may be adverse to those of Oglethorpe.
3. The Information is the type of data that Oglethorpe holds confidential. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3) otherwise compromise Oglethorpe's ability to procure the best cost resources from the energy marketplace. Oglethorpe provided the Information for inclusion in the ESP Application pursuant to agreements that require that access to the Information be

limited to individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, Oglethorpe requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

AFFIDAVIT OF ROBERT P. JOHNSTON

I, Robert P. Johnston, President and Chief Executive Officer of the Municipal Electric Authority of Georgia ("MEAG"), state that:

1. I am authorized to execute this affidavit on behalf of MEAG.
2. MEAG is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) (the "Information"). The Information is proprietary, trade secret, and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by MEAG.
 - b. The Information is of a type that is held in confidence by MEAG and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning MEAG's need for power data and reserve margin.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of MEAG by disclosing its need for power and reserve margin data to other parties whose commercial interests may be adverse to those of MEAG.
3. The Information is the type of data that MEAG holds confidential. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3) otherwise compromise MEAG's ability to procure the best cost resources from the energy marketplace. Southern Nuclear Operating Company ("SNC"), working on behalf of the owners, has limited the access to the

Information to those SNC individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, MEAG requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

AFFIDAVIT OF DON COPE

I, Don Cope, President and Chief Executive Officer of Dalton Utilities, representing the Board of Water, Light and Sinking Fund Commissioners of the City of Dalton, Georgia, an incorporated municipality in the State of Georgia, state that:

1. I am authorized to execute this affidavit on behalf of Dalton Utilities.
2. Dalton Utilities is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1 (the "Information")). The Information is proprietary, trade secret, and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by Dalton Utilities.
 - b. The Information is of a type that is held in confidence by Dalton Utilities and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning Dalton Utilities' need for power data and reserve margin.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of Dalton Utilities by disclosing its need for power and reserve margin data to other parties whose commercial interests may be adverse to those of Dalton Utilities.
3. The Information is the type of data that Dalton Utilities holds confidential. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3) otherwise compromise Dalton Utilities' ability to procure the best cost resources from the energy marketplace. Southern Nuclear

Operating Company ("SNC"), working on behalf of the owners, has limited the access to the Information to those SNC individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, Dalton Utilities requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

Notes:

- 1) Information revised in the ESP application is denoted by revision bars.
- 2) A Revision Summary was added after the overall application table of contents which specifies the revision level of each application chapter, or section if applicable.
- 3) ESP application page footer revision number/date indicators have been changed from "Revision 0 August 2006" to "Revision 1 November 2006" for the entire related application chapter (or section if applicable) text if any information in that application chapter (or section) was changed in Revision 1. However, the page footer revision number/date indicators for figures are specific to each figure.
- 4) Although not considered part of this application revision, it should be noted that Figure 2.5.3-1 of the Environmental Report, showing the location of cultural resource sites, was removed from the ESP application at the request of the NRC.
