Subject: Nuclear power plant in Burke County

Please take into consideration my opinion that it would not be in Georgia's best interest to expand nuclear power plants and/or production.

I have friends that worked at the old SRS plant even after it went out of production. A disproportional number of those people have developed serious health problems most of which include cancer. Even though the plant may bring jobs to the area people's health and safety is more important to their family and friends in the end.

Please do not support this expansion. Maybe we could shift the focus to conservation.

Sincerely,

Suzanne Struble
