Delaware SPECT Imaging Center, NRC license number 07-28154-01, is requesting an amendment to our license changing the RSO from Dr. Steven Edell, DO, to Dr. Paul J. Alfieri, MD.

Dr. Paul Alfieri is an authorized user on this license and has experience with the radiation safety aspects of similar types of use of byproduct material for which he would have Radiation Safety Officer responsibilities.

Dr. Paul Alfieri has satisfactorily completed required training as submitted in prior letter and has achieved a level of radiation safety knowledge sufficient to function independently as a Radiation Safety Officer for a medical use licensee.

Dr. Paul Alfieri has training in the radiation safety, regulatory issues, and emergency procedures for the types of use for which this licensee is seeking approval.

As an authorized user on this license, Dr. Alfieri has demonstrated that he has the level of knowledge and expertise necessary to assume the responsibilities of Radiation Safety Officer as listed in 10CFR Part 35.50 (c)(2), (d), and (e).

Sincerely:

Steven Edell, D.O., R.S.O.
