The University of Virginia Materials License, No. 45-00034-26, requires that an authorized medical physicist for this license shall meet the training and experience criteria specified in 10 CFR Part 35 and be designated in writing by the licensee's Radiation Safety Committee (RSC).

The University Radiation Safety Committee has reviewed documentation of your training and experience and has determined that you meet the specified criteria. You will be identified as an *Authorized Medical Physicist* for the following activities performed under the Materials License noted above:

Manual Brachytherapy and use of Photon Emitting Remote Afterloader Units specifically listed on the University of Virginia's Materials License.

These activities must be conducted in accordance with the regulations of Title 10, Part 35 of the Federal Code of Regulations (10 CFR Part 35) and the conditions of the University's license. In addition, the responsibility for security of the sources used in these activities is shared by all authorized individuals. All radioactive material must be secured against removal by unauthorized individuals when not in use or unattended.

If you have any questions regarding this authorization, please contact the Office of Environmental Health & Safety

Sincerely,

Ralph D. Allen  
Chair, Radiation Safety Committee
