(NOTE: This will be used as the  
Documents Title in ADAMS)

Summary: In order to amend the license for St. Vincent Health Center, I will need the following:

1. Concerning Dr. Hyatt as the Radiation Safety Officer (RSO).

Because Dr. Hyatt is not authorized for the use of 35.400 materials, he will need to receive training in the radiation safety, regulatory issues, and emergency procedures associated with these types of materials. This training may be provided by the current RSO or an authorized user of 35.400 materials. After Dr. Hyatt has completed the training, provide this statement, signed by the preceptor RSO, stating that "Floyd Hyatt, M.D. has satisfactorily completed the requirements in 10 CFR 35.50(e) and has achieved a level of radiation safety knowledge sufficient to function independently as a Radiation Safety Officer for a medical use licensee."

2. Concerning the addition of Bharath K. Chinta, M.D. and Stephen A. Oljeski, M.D. as authorized users.

If neither of these physicians are currently listed on an NRC or Agreement State license, you will need to provide a Preceptor Form (NRC Form 313A) for each of them. The NRC does not currently recognize the certification by the American Board of Radiology. The Preceptor Form may be found at our website, [www.nrc.gov](http://www.nrc.gov).

3. Concerning the addition of the satellite location of use, specify the address of the facility.
