RE: ESP Environmental Scoping Comments for  
nuclear Plant Vogtle

I am very concerned with Southern Nuclear's ESP  
application to build up to two more nuclear reactors  
at Plant Vogtle. I urge you to thoroughly evaluate  
the water and security issues that new reactors would  
pose to the Savannah River basin and surrounding  
communities. Energy efficiency and renewable  
energy supplies must also be reviewed as possible  
alternatives. Additionally, please address the  
following items as NRC staff develops the draft EIS:

1. GEORGIA LAGS THE  
COUNTRY IN CONSERVATION  
EFFORTS, YET THIS IS THE  
QUICKEST & CHEAPEST WAY  
TO "ADD" ONE OR TWO  
MORE POWER PLANTS.  
PLEASE CONSIDER.

Sincerely,
