Subject: Clinton Power Plant

Dear NRC -- Re Docket No. 62-007-ESP and ASLBP No. 04-821-01-ESP:

The present nuclear reactor at Clinton wastes large amounts of its energy heating the water in Clinton lake.

The nuclear waste stored on site is an active environmental and public health danger, requiring careful management into the indefinite future (many thousands of years). The immense consumption of capital required by huge nuclear plants

threatens to choke off unquestionably more benign alternatives such as wind energy.

For these and other reasons I urge you not to issue an Early Site Permit for Exelon's proposed second nuclear power plant at Clinton IL

Christopher W. Baker
701 W. Church Apt #1
Champaign IL 61820
