US NRC RII - Atlanta Federal Center
Suite 23T85, ATTN: DNMS
61 Forsyth Street
Atlanta, GA 30303

March 1, 2000

Dear Mr. Collins:

I would like to amend my amendment to my NRC license. My license number is 52-25430-01 and the amendment is under Mail Control Number 258642.

The calibration of the gauges will be done either at Las Piedras Construction. Please remove UCC and my office. Minor repairs (other than source remove) will be done at the engineering companies. Attached is the approval letter from Las Piedras Construction.

Transport the gauge will follow DOT regulation. If your need any further information, please contact me at the address, phone number, or e-mail address above.

Sincerely,

David Rhoe

Dear Mr. Rhoe

Las Piedras Construction would like to offer you the storage area behind our main office to use in the calibration/repair of Nuclear Gauges. The physical address is as follows:

El Caño Ave. (PR-165) Km. 1.1
Cataño, PR 00632

We understand that you will be the sole user of this area to store and repair Nuclear Gauges from different facilities. Therefore we will provide you 24 hours access in case of an emergency and to allow you the freedom to perform your necessary duties. We will restrict our employee access from the storage area to provide the necessary security as required by the Nuclear Regulatory Agency. In return, the calibration of our three Nuclear Gauges will be free.

Sincerely,

Israel Morales, P.E.
Plant Manager

David Collins,

*The signed letter might be to light. I re-typed
this one so you can read it better.*
