Dear Mr. Ferraro:

This letter recaps the brief telephone conversation I had with you yesterday, November 20, 2006. As I discussed with both you and Tim Matthews, I am sending you a bundle of apparently FENOC-generated documents for proprietary review—24 pages in total. The documents are in PDF format on the enclosed CD and labeled by Bates number. If you could finish your review by sometime next week, I would really appreciate it.

For your convenience and reference, the requirements for a claim of propriety can be found at 10 C.F.R. § 2.390. If compliance with the terms and obligations of this section would effectively prohibit you from getting back to me within the next week or so, please give me a call.

If you have any questions or concerns, contact me at 301-415-3629 (w) / 724-664-6529 (c) or at [bm11@nrc.gov](mailto:bm11@nrc.gov).

Sincerely,
