November 20, 2006

U.S. Nuclear Regulatory Commission

Attn: Document Control

Washington, DC, 20555-0001

Subject: Submission of Changes to Physical Security Plan under 10CFR50.54(p)

Ref: The University of Texas at Austin Facility License R-129, Docket 50-602

Sirs:

Attached please find a revised copy of the Physical Security Plan for The University of Texas at Austin Nuclear Engineering Teaching Laboratory. These changes incorporate the previously approved Compensatory Measures as well as updating the plan for personnel titles, facility drawings and NRC contact points. All changes were reviewed by the Reactor Oversight Committee and were evaluated to not reduce the effectiveness of the approved Physical Security Plan. The Plan is now considered Reactor Safeguards Information due to the addition of the Compensatory Measures.

Please contact me by phone at 512-232-5373 or email sokelly@mail.utexas.edu if you require additional information or there is a problem with this submittal.

Thank you,

Sean O'Kelly

Associate Director

Nuclear Engineering Teaching Laboratory

The University of Texas at Austin
