In a letter dated September 29, 2006, the licensee requested that the authorization for John Matthews, M.D. be expanded to include 35.300 materials. The licensee provided a preceptor form that showed the training was completed on 1992. The licensee did not provide any documentation that indicated recent use of these materials. A search of ADAMS revealed that Dr. Matthews was authorized for the use of 35.300 materials on the Tenet - Elkins Park license (37-04172-01) through 2002. Because Dr. Matthews was listed on a license within the past seven years for the use of 35.300, he was listed on the Nazareth license for this use.
