Hi Rich,

I hope everything is well with you.

I met today with our Health Surveillance epidemiologists. They are working on various VY projects include one for you that may identify incidence and mortality for cancer near VY. Though they may have data on other cancers, they are focusing on leukemia, adult and pediatric, and thyroid cancer.

I would like to tell them when this needs to be submitted to you for inclusion into the EIS. What date should I use?

Bill

Bill,

Wednesday, August 9 at 1:00 pm at your offices would be great. I'll be there; I will probably have 2 or 3 people with me. It is not clear if Halil Avci from Argonne National Laboratory will attend or join in by phone. Thank you again for putting this meeting together for us.

Rich Emch

Good Morning Gentlemen,

Lets plan on meeting Wednesday, 8/9 at 1 PM in Health Protection at 101 Cherry Street, the third floor. I have reserved a conference room for us. Please confirm that this date and time works for you. Thanks.

Bill

Wed 8/9 works best for me and for Dr. Sumner - our new environmental epidemiologist.

Hi Rich,

Looks like we should get our reservations for your time in early! The Department of Homeland Security is coming in next week, too, and I am getting invited to activities down in Vernon on the 8th, 9th and 10th. I will not go each day, because I want to give you some time while you are in Burlington. I have asked Dr. Lohff to hold a time on 8/9 at this point, and also to look at Friday, 8/11, as that may be my best day.

Until we hear from Cort on Friday morning, can we hold a spot on Wednesday 8/9 in the afternoon?

Bill

Bill, Thanks! Adjustments to NRC availability: Tuesday afternoon, anytime Wednesday, Friday morning; Thursday is now booked with SHPO and ANR.

Rich Emch

I am in Brattleboro at VY hearings. The NRC would like a brief meeting with cognizant VDH staff regarding health effects around VY. This is relevant to their draft of an environmental impact statement for VY license extension.

They are available next Tuesday and Wednesday PM or next Thursday or Friday AM. Their primary endpoint is cancer, but all health effects are on the table.

Could we put something together for their time in Burlington
8/8-8/10?

Bill
