SUBJECT: NOTIFICATION OF SCHEDULE CHANGE FOR TRIENNIAL FORCE-ON-FORCE
INSPECTION AND EXERCISE ACTIVITIES AT THE PILGRIM NUCLEAR
POWER STATION

Dear Mr. Balduzzi:

This letter informs Entergy Nuclear Operations, Inc. of a change regarding the Nuclear Regulatory Commission's (NRC's) scheduled triennial force-on-force (FOF) inspection and exercise activities for the Pilgrim Station. To facilitate the licensee's participation by senior station management, the NRC has rescheduled the second on-site visit so that the FOF exercises will be conducted during the week of July 25, 2005.

NRC's plans for inspection activities in the first on-site visit during the week of June 27, 2005, consisting of an entrance meeting, a protective strategy briefing by the licensee, site tours, table-top drills, deadly force interviews, a demonstration of licensee's tactical qualification course of fire, and intrusion detection system testing, remain unchanged. In addition, schedules for the licensee's preparation activities, including transmittal of site-specific features and security strategy, target set information work sheets, site-specific Multiple Integrated Laser Engagement System (MILES) safety analyses, and Trusted Agent Memoranda of Understanding remain unchanged.

Should you have any questions regarding this matter, please contact Mr. Ronald J. Albert at (301) 415-6692.

Sincerely,
