RE: Change of Radiation Safety Officer at Montana Tunnels Mining, Inc.

Dear Ms. Browder,

In an email to you dated August 24, 2006, Mike Rocchio, the Radiation Safety Officer (RSO) at Montana Tunnels Mining notified your office that he was leaving his position with our company and that I would temporarily oversee the radiation safety program until a replacement RSO could complete the required training. The individual who has completed required training and will assume the position of RSO under the Montana Tunnels Mining, Inc. Materials License No. 25-26866-01 is Mr. Chris Bullock, Mill General Foreman at Montana Tunnels Mining, Inc. A Certificate of Completion for the 40-hour Radiation Safety Class completed by Chris Bullock on September 21, 2006 is attached. A copy of Montana Tunnels Mining NRC Material License No. 25-26886-01 is also attached.

I have personally received acknowledgement of receipt of application for processing from NRC, Mail Control Number 4710889. I will not be assuming the position of RSO for Montana Tunnels and request that the review for this license position be assigned to Chris Bullock at the Montana Tunnels address.

If you have any questions, please contact me at (406) 495-2807 or by email, jschaefer@mttunnels.com.

Sincerely,

John Schaefer
Environmental Manager
Montana Tunnels Mining, Inc.

cc: ~~Chris Bullock~~
Tim Smith
