

NRC FORM 7 (6-2006) 10 CFR 110		U.S. NUCLEAR REGULATORY COMMISSION		APPROVED BY OMB: NO. 3150-0027		EXPIRES: 06/30/2009	
APPLICATION FOR NRC EXPORT/IMPORT LICENSE, AMENDMENT, OR RENEWAL (See Instructions on Page 5)				Estimated burden per response to comply with this mandatory collection request: 2.4 hours. This submittal is reviewed to ensure that the applicable statutory, regulatory, and policy considerations are satisfied. Send comments regarding burden estimate to the Records and FOIA/Privacy Services Branch (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to infocollects@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0027), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

RE: Application for Specific License for the Export of Americium in amounts exceeding SI Limits – NRC 10 CFR, Part 110

Deputy Director,

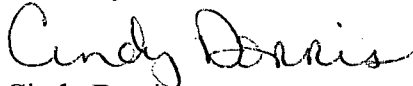

Halliburton Energy Services, Inc. is applying for a license to export and import Category 2 Americium-241 and Americium-241/Be for shipments that are in the excess of the 0.6 terabequerels threshold. These materials will be used to calibrate down hole well logging equipment for the completion of an oil or gas well prior to the production, or to enhance production of existing wells. These items are subject to the export licensing jurisdiction of the U. S. Nuclear Regulatory Commission. Enclosed please find Halliburton's check in the amount of \$3900.00 (Thirty nine hundred dollars) as the application fee for this license.

Halliburton Energy Services in consideration of Title 10, Part 110.42 (c) of the Code of Federal Regulations submits that the NRC-Controlled Items proposed for export are not inimical to the common defense and security of the United States and the proposed exports are consistent with the policies and objectives of the United States Government.

Included in the application package please find a completed and signed copy of NRC Form 7, "Application for License to Export Nuclear Material and Equipment," with attachment and a copy of current license which will expire in December of 2006.

If you should have any questions please do not hesitate to call or write at the above number or address.

Sincerely,

Cindy Dorris

Attachment 1
USNRC Form 7, Application to Export and Import
Americium Material
HES4017

Halliburton's license application criteria is based on the specific shipments that exceed NRC threshold limits as per 10 CFR Part 110. Our current inventory includes 19 Curie Ambe sources that will require this license for all exports and imports returning to the U.S.

The new regulation requires the use of the 'sum of calculations' methodology for multiple or consolidated shipments. Halliburton has several Ambe sources that are less than the threshold but could exceed the limits if consolidated.

For this reason we are requesting a quantity of 200 'events' or movements. Each shipment will be considered one event and therefore one pull down on the license and one notification to the NRC.

Description
19 Curie Am241Be Logging Source used with Dual Spaced Neutron Tool.
15 Curie Am241Be Logging Source used with Dual Spaced Neutron Tool
0.5 Curie Am241Be Logging Source used with Dual Spaced Neutron Tool
150 milliCurie Am241 source for use with the Fluid Density Tool
0.1 milliCurie Am241 calibration source for tool calibration
19 Curie Am241/Be sealed source with transport shield used in Compensated Thermal Neutron (CTN) Tool
50 nCi Am-241 pulsar source installed in the Compensated Spectral Natural Gamma Ray Tool
8 Curie Am241Be sealed source with transport shield used in Compensated Neutron Porosity (CNPh) Tool
100 milliCurie Am241Be sealed source installed in Compensated Thermal Neutron (CTN) verifier for calibration of CTN Tool

Application country for Halliburton Company Germany (GmbH) and subsidiaries in various oil well locations onshore and offshore in Indonesia.
