South Texas Project
Unit 2
Docket No. STN 50-499
Withdrawal of Proposed One-Time Change to Technical Specification 3.7.4
And Associated Supported Systems Limiting Condition for Operation Action Statements

Reference: Letter from E. D. Halpin to NRC Document Control Desk dated November 6, 2006, "Proposed One-time Change to Technical Specification 3.7.4, "Essential Cooling Water System," and Associated Supported Systems Limiting Condition for Operation Action Statements (NOC-AE-06002077).
[TAC MD3467]

STP Nuclear Operating Company (STPNOC) hereby withdraws the referenced proposed amendment to South Texas Project Unit 2 Operating License NPF-80. The proposed amendment would have extended on a one-time basis, the Allowed Outage Time (AOT) associated with the Unit 2 Train C Essential Cooling Water (ECW) Pump.

STPNOC returned the Unit 2 Train C ECW Pump to service within the associated 7-day AOT permitted by Technical Specifications, therefore the one-time extension was not needed.

There are no commitments in this letter.

Please contact James Morris at (361) 972-8652 or me at (361) 972-7136 if you have any questions regarding this matter.
