

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION I
475 ALLENDALE ROAD
KING OF PRUSSIA, PENNSYLVANIA 19406-1415

December 4, 2006

Robert A. Zoon, M.E., M.S.
Radiation Safety Officer
Department of Health and Human Services
National Institutes of Health
21 Wilson Drive, MSC 6780
Bethesda, MD 20892-6780

SUBJECT: LETTER OF APPRECIATION

Dear Mr. Zoon:

Please accept our appreciation for the very informative tour of facilities at the National Institutes of Health (NIH) for Commissioner Lyons and members of his staff, and staff from the Office of Federal and State Materials and Environmental Management Programs and Region I. We greatly appreciate the time and effort that you and your staff expended in organizing the tour and facilitating discussions with key personnel at NIH.

Commissioner Lyons was very complimentary of the tour and information provided, in particular the work performed at the Clinical Research Center and the discussion on the use of cyclotron produced material used to advance the treatment of cancers. As for myself, this was an especially timely opportunity as I have recently become the Director of the Division of Nuclear Materials Safety in Region I. Through your efforts, I was able to observe a wide variety of medical uses of radioactive material and radiation producing machines, as well as participate in informative discussions with key NIH personnel.

Thank you for taking time from your busy schedule to provide this excellent tour.

Sincerely,

/RA/

Brian E. Holian, Director
Division of Nuclear Materials Safety

R. Zoon
