Re: Docket No. 03019970 Control No. 139711 License No. 37-10284-02

Dear Ms Lanzisera,

We have received confirmation for an amendment to the above license to move treadmill/cardiac activities to a new location.

In this confirmation dated November 24, 2006, you requested the results of surveys demonstrating acceptable levels of residual activity. I am enclosing copies of the closeout surveys for the treadmill room so that the room may be released for unrestricted use. This room, upon release, will be used as a radiology interpretation room.
