

NRC Contact Report	
Earth Tech Representative: Steve Duda	Contact Name/Title: Brad Chase, Biologist
Date: 8/16/06	Contact Phone Number: 978-282-0308 (x111)
Project: PNPS SEIR	Contact Agency:
Other Participants: None	
Reason for Call: to obtain an update on the status of rainbow smelt stocks in the vicinity of PNPS	
<p>Notes from Call:</p> <p>The MADMF started a new study using Fyke nets approximately 3 years ago. I should send Mr. Chase an email requesting the data as a reminder. He should have a draft report pulled together by the end of August. This study will be continued beyond 2006.</p> <p>He did say that the populations throughout the state (particularly in the Jones River) have not rebounded and are still at depressed levels.</p>	
<p>Follow-up actions Required:</p> <p>Steve Duda to send an email to Mr. Chase, formally requesting a copy of the most recent data for the Mass. rainbow smelt monitoring project.</p>
