**Subject:** New reactors at Plant Vogtle

Dear NRC,

Georgians do not need any more dangerous nuclear reactors forced down our throats. The Savannah River basin is already in trouble. Vogle's existing reactors require huge amounts of water, and the water discharged back into the river is hotter than before, endangering fish, plant and animal life that depend on the river. Furthermore, there still is no plan for storing or disposing of the additional radioactive nuclear waste, which would threaten the health of Georgians for generations to come.

We need clean, safe energy sources -- wind, solar, biopower and greater energy efficiency -- NOT more nuclear reactors.

Sincerely,  
 Bob Goodman  
 2302 Dancing Fox Road  
 Decatur, GA 30032
