Andrew -

I will be sending along some of the information you requested re: Environmental Scoping. Below is the information on moorings as per our Harbor Master. I can fax you incident statistics on Roxy Hill Road as requested - let me know if that is the best way to pass the information along to you. The statistics represent three years of history.

Regarding summer population - we go from year round of approximately 55,000 to a seasonal (summer) total population of 86,113.

Regards,

Mark

Mark,

We currently have:

Moorings- 685 total

under 20 feet=140 moorings

21-25 feet= 256 moorings

26 feet and up = 289 moorings

We have 60 Lobster vessels on moorings.

We have 35 fishing vessels on the Town Wharf.

We have 12-15 party vessels on the Town Wharf.

Brewer Marine has 100 vessel slips and 40 vessels in rack storage.

Cordage Park last year had 50 vessel slips.

Thanks Tim

Hi Tim -

Do you know what the average mooring count is for the harbor?

Thanks

Mark
