the JOG responded (Reference 3). During a technical audit of the JOG MOV PV Program, the NRC requested supplemental information to support JOG's responses that was provided by JOG in Reference 4. The NRC staff completed its review of MPR-2524 and issued the final Safety Evaluation (Reference 5) on September 25, 2006.

The JOG has revised MPR-2524 to reflect the USNRC Safety Evaluation of the Joint Owners' Group MOV Periodic Verification Program. Specific changes documented in the MPR 2524 Revision A are:

- Compilation of USNRC Comments & JOG Responses (Appendix F)
- USNRC Safety Evaluation. (Appendix G)
