Inspector Evaluation

The inspector's impression of the program as run by Holland and Lodde is generally excellent. Capt. Lodde who apparently does the bulk of the health physics work appears to be diligent, conscientious and well trained. In the opinion of the inspector, there are no health and safety problems associated with the licenses inspected and the program as set up indicates no problem in the foreseeable future.

License -1, Category G(I), recommend 6 month extension, inspect 1/68.

License SUB-603, Category G(IV), suggest 18 month extension, inspect 1/71.
