Gentlemen:

This is in reference to your application dated April 25, 1978, for renewal of Source Material License No. SUB-603. We have decided that it would be more convenient to the Nuclear Regulatory Commission to authorize your use of source material under your License No. 08-01738-02, rather than to continue a separate license, Source Material License No. SUB-603. Accordingly, we are amending your License No. 08-01738-02 (see enclosed) and terminating your Source Material License No. SUB-603 (see enclosed). If you have any questions or require clarification in this matter, you may contact us at (301) 427-4232.

Sincerely,

Michael A. Lamastra
