Subject: request for extension on response to NOV			
<p>Summary:</p> <p>LTC Samoljan requested an extension for the response to the NOV sent out in September from the NRC. Because of the address on the "cc" copy, the NOV did not arrive at the Rad. Safety Office until 11-23-92. LTC Samoljan stated that he needed more time to get a response out even though corrective actions had been taken on the violations. He also stated that he could get a response out by the week before Christmas.</p> <p>After getting confirmation from Dr. Shanbaky, I told Dave Burton, of the Rad. Safety office that the response date would be extended to December 18, 1992.</p>
