SUBJECT: MEETING REPORT REGARDING THE PUBLIC INFORMATION
MEETING FOR THE DECOMMISSIONING REVIEW OF THE
SHIELDALLOY METALLURGICAL CORPORATION
DECOMMISSIONING PLAN

As part of its decommissioning plan review process, the staff held a press conference and public information meeting in Newfield, New Jersey on December 5, 2006, regarding Shieldalloy Metallurgical Corporation's proposal for restricted use decommissioning at its Newfield site. Both were covered by local television and print media. Prior to the meeting, the NRC management with NJDEP officials to discuss decommissioning the site.

There were approximately 160 attendees at the public meeting, who were all strongly opposed to Shieldalloy's decommissioning proposal to leave 18,000 cubic meters of radioactive slag and 15,000 cubic meters of radioactive baghouse dust at the site under restricted use conditions. Participants in the meeting included representatives from the offices of Senators Lautenberg and Menendez, three local Assemblymen, the Mayor of Newfield, staff from NJDEP and U.S. EPA. On December 7, 2006, the NRC staff met with the Commissioner's assistants to discuss the outcome of the meeting. Key issues discussed included; (1) Community opposition to restricted use decommissioning, (2) Cost/Benefit and Financial Assurance, (3) Quality of Shieldalloy's dose assessment, and (4) Shieldalloy's claims regarding limitations of its financial resources.

A transcript of the meeting is enclosed. (ML063530642)
