RE: Amendment to NRC License No. 21-32486-01
State Registration #: 1862-1

Dear Sir/Madam:

The purpose of this letter is to amend our current NRC license to reflect the following changes.

Item #1

Please remove the following location of use from our license:

Downriver Medicine Associates, PLC
15401 Southfield Road
Allen Park, MI 48101

A close-out survey was performed on September 11, 2006 of the above address and is enclosed for your review.

The last date of receipt and use of radioactive material at this site was August 21, 2006. Only the radionuclide Technetium 99m was used for diagnostic testing at this facility. A current copy of the leak test results for the sealed sources used at our facility is enclosed for your review. This facility is exempt from decommissioning due to low volumes and short physical half-lives of materials used.

We did not dispose of radioactive materials by release to sewers or incineration. In addition, there were no spills of any long-lived radioactive material or on-site burials of radioactive materials.

Thank you for your cooperation. If you have any questions or require additional information, please contact our physics consultant, Sharon Updike at 734-662-3197.

Respectfully Yours,

A handwritten signature in black ink, appearing to read 'Eddy Einares Jr.', written over a horizontal line.

Eddy Einares Jr.
Chief Executive Officer
