**Subject:** Proprietary Markings in HI-STORM FSARs

Chris,

In your 21 September 2006 letter, you questioned proprietary markings on several figures in Revisions 3 and 4 of the HI-STORM FSAR, both of which were officially submitted as an FSAR update via Holtec letter 5014593. We reviewed the submitted documents and find that Figures 3.4.30 through 3.4.47 were incorrectly marked as proprietary. All of these figures have been released publicly in previous FSAR revisions.

Please advise if you will require submittal of replacement pages that are not improperly marked, or if you will release the current copies.

Evan
