Docket No. 030-12570
Mail Control No. 139759

Dr. Butler,

Please provide additional documentation to support the removal of 31.11 from your license. Specifically, indicate the radioisotopes used for in-vitro laboratory tests at Wheeling Hospital. If only I-125 was used, no further decommissioning information is necessary. However, if C-14 or H-3 was used, an environmental assessment to support release of facilities for unrestricted use must be prepared in accordance NUREG-1757, Volumes 1 and 2. The following link will provide you additional information: <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1757/>

Please note that you may not reply to this letter by return e-mail. Your reply must be in writing by letter or facsimile (610-337-5269). Please refer to Mail Control No. 139759 in your response. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application.
