The SER is scheduled to be issued on December 29, 2006.

The tentative date for the next ACRS subcommittee meeting is January 18, 2007.

How many days do we have to review and comment on the supplement? I assume that the SER issuance would be postponed now that this new information has become available. Also, when is the next ACRS sub-committee meeting? They planned a second meeting but they have not scheduled it.
