Paul-

The material was sent directly to the ACRS staff. I understand that I was sent a copy and a copy was being supplied to the document control desk. I believe that the ACRS staff did receive the material. As of right now, I have not received my copy. I am told that it is a large amount of material. As soon as I see the information, I will make every effort to get you an advanced copy. As you are aware, usually there is a 5 day wait, after the information is received at the Document Control Desk. My email is limited in the size of the attachments that I can send, if it is too large would a CD be acceptable?

Donnie,

I recall that AmerGen committed to provide its response to drywell liner issues to be raised at the next ACRS Subcommittee on License Renewal (January 18, 2006) meeting on Oyster Creek by Friday, December 08, 2006.

Did they provide their response?

Can I receive an advance copy or do I need to wait for the public release to ADAMS? If I need to wait for the ADAMS release do you have any idea when it is to be forwarded to document control division and the approximate posting date?

Thanks,

Paul, NIRS
