Dear Mr. Collins:

This letter is to inform the NRC that Georgia-Pacific Corporation will become Georgia-Pacific Wood Products, LLC effective on January 1, 2007. Our NRC License 45-25050-01 will be under this new entity from that date forward. In accordance with Appendix C of NUREG-1556, Vol.4, enclosed is the information needed for Transfer of Control Application.

1. The new name of the licensed organization. If there is no change, the licensee should so state.

Georgia-Pacific Corporation will become Georgia-Pacific Wood Products, LLC.

2. The new licensee contact and telephone number(s) to facilitate communications.

No changes

3. Any changes in personnel having control over licensed activities (e.g., officers of a corporation) and any changes in personnel named in the license such as radiation safety officer, authorized users, or any other persons identified in previous license applications as responsible for radiation safety or use of licensed material. The licensee should include information concerning the qualifications, training, and responsibilities of new individuals.

No changes

139730
NMCC/RONI MATERIALS-032

4. An indication of whether the transferor will remain in non-licensed business without the license.

No changes

5. A complete, clear description of the transaction, including any transfer of stocks or assets, mergers, etc., so that legal counsel is able, when necessary, to differentiate between name changes and changes of ownership.

We are writing to inform you that Georgia-Pacific Corporation will become Georgia-Pacific Wood Products, LLC effective on January 1, 2007, and the assets associated with the Skippers facility will be transferred from Georgia-Pacific Corporation to Georgia-Pacific Wood Products LLC.

6. A complete description of any planned changes in organization, location, facility, equipment, or, procedures (i.e., changes in operating or emergency procedures).

No changes

7. A detailed description of any changes in the use, possession, location or storage of the licensed materials.

No changes

8. Any changes in organization, location, facilities, equipment, procedures, or personnel that would require a license amendment even without the change of ownership.

No changes

9. An indication of whether all surveillance items and records (e.g., calibrations, leak tests, surveys, inventories, and accountability requirements) will be current at the time of transfer. A description of the status of all surveillance requirements and records should also be provided.

No changes

10. Confirmation that all records concerning the safe and effective decommissioning of the facility, pursuant to 10 CFR 30.35(g), 40.36(f), 70.25(g), and 72.30(d); public dose; and waste disposal by release to sewers, incineration, radioactive material spills, and on-site burials, have been transferred to the new licensee, if licensed activities will continue at the same location, or to the NRC for license terminations.

No changes

11. A description of the status of the facility. Specifically, the presence or absence of contamination should be documented. If contamination is present, will

decontamination occur before transfer? If not, does the successor company agree to assume full liability for the decontamination of the facility or site?

No changes

12. A description of any decontamination plans, including financial assurance arrangements of the transferee, as specified in 10 CFR 30.35, 40.36, and 70.25. This should include information about how the transferee and transferor propose to divide the transferor's assets, and responsibility for any cleanup needed at the time of transfer.

No changes

13. Confirmation that the transferee agrees to abide by all commitments and representations previously made to NRC by the transferor. These include, but are not limited to: maintaining decommissioning records required by 10 CFR 30.35(g); implementing decontamination activities and decommissioning of the site; and completing corrective actions for open inspection items and enforcement actions.

With regard to contamination of facilities and equipment, the transferee should confirm, in writing, that it accepts full liability for the site, and should provide evidence of adequate resources to fund decommissioning; or the transferor should provide a commitment to decontaminate the facility before change of control or ownership.

With regard to open inspection items, etc., the transferee should confirm, in writing, that it accepts full responsibility for open inspection items and/or any resulting enforcement actions; or the transferee proposes alternative measures for meeting the requirements; or the transferor provides a commitment to close out all such actions with NRC before license transfer.

Georgia Pacific Wood Products, LLC is committed to following the Material License 45-25050-01. There will be no changes to the program and the company's commitment to follow the requirement in our current license.

14. Documentation that the transferor and transferee agree to the change in ownership or control of the licensed material and activity, and the conditions of transfer; and the transferee is made aware of all open inspection items and its responsibility for possible resulting enforcement actions.

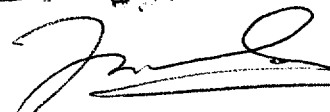

No changes

15. A commitment by the transferee to abide by all constraints, conditions, requirements, representations, and commitments identified in the existing license. If not, the transferee must provide a description of its program, to ensure compliance with the license and regulations.

There will be no change in the company's commitment to abide by all constraints, conditions, requirements, representations, and commitments identified in the existing license.

Please let us know what further steps, if any, we need to take to effect a change to our license. We will assume this notice is sufficient for your purposes, unless we hear from you otherwise. If you have any questions or comments regarding this matter, please contact me at 434-634-6133.

Sincerely,

Dr. F. S. Lin
Plant Manager
