

TSTF 2007 Priorities

1. Work with the NRC to formalize the NRC review of plant-specific LARs based on Travelers (LIC-101).
2. Work with NRC to finalize the Travelers scheduled to be completed in 2007 in the NRC's November 16 letter (i.e., TSTF-412, -426, -446, -448, -475, -476, -477, -478, -486, -487, -490, -491, -493, -495).
3. Obtain NRC approval of a version of TSTF-493 that is acceptable to the industry.
4. Work with NRC to formalize the NRC Traveler review process (LIC-505).
5. Submit a generic Traveler for RITSTF Initiative 4b.
6. Submit a generic Traveler to address the changes to TSTF-360
7. Submit a revision to TSTF-425 to make it generically applicable.
8. Obtain NRC endorsement of TSTF-GG-05-01, "Writer's Guide for Plant-Specific Improved Technical Specifications."
9. Work with NRC to formalize the ISTS conversion review process.
10. Establish procedures for use of on-line commenting for complex Travelers and ISTS conversions.
11. Provide training to the new TSTF members.
