Dear Mr. Magnusson:

I would like to thank the management and staff of the 3M Company for hosting the U.S. Nuclear Regulatory Commission (NRC) during my recent visit to your gamma sterilizer facility. I found the information you and your staff provided, including your perspectives on current NRC initiatives in the nuclear materials security area, to be very insightful. I appreciate the effort that you and your staff expended in organizing a well-orchestrated visit and facilitating discussions with your staff which were informative. My staff will be in contact with you in the near future regarding the issue your staff discussed during my visit regarding the transshipment of nuclear materials.

I highly value information and insights from organizations such as yours, and I appreciate the time and efforts taken by 3M Company to facilitate an excellent tour of your facility.

Sincerely,

/RA/
