Lisle, IL 60532-4352

Re: NRC License #13-13300-01

To Whom It May Concern:

This letter references the request to amend our license dated November 20, 2006. Per phone conversation December 4, 2006 with Loren Hueter, Control No. 315860, conversation record summary item 2, we are following his recommendation to delete the request for the establishment of an Assistant RSO position.

We are still requesting that Mike Michl replace Gary Isle as the Terre Haute site RSO.

In reference to, Control No. 315860, phone conversation record summary item 3, regarding specifying a total possession limit addition to License Item 8 for each radioisotope listed in License Item 6:

For License Item 6 A, Cesium-137, Item 8 A should be:
Total possession limit to be less than 15 Curies

For License Item 6 B, Americium-241, Item 8 B should be:
Total possession limit to be less than 5 Curies

For License Item 6 C, Krypton-85, Item 8 C should be:
Total possession limit to be less than 30 Curies

For License Item 6 D, Strontium-90, Item 8 D should be:
Total possession limit to be less than 5 Curies

For License Item 6 E, Promethium-147, Item 8 E should be:
Total possession limit to be less than 100 Curies

For further information or question concerning this response please contact Mike Michl at:

Phone # (812) 466-4277 ext. 4356
FAX# (812) 462-5103

Sincerely,

Lawrence A. Mauer
Director of Operations
