

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION III  
2443 WARRENVILLE ROAD STE 210  
LISLE, ILLINOIS 60532-4352

DEC 20 2006

Mike Michl  
Radiation Safety Officer  
Applied Extrusion Technology, Inc.  
P.O. Box 5038  
Terre Haute, IN 47805

Dear Mr. Michl:

Enclosed is Amendment No. 29 to your NRC Material License No. 13-13300-01, in accordance with the request to name you as the new replacement Radiation Safety Officer. Please note that the changes made to your license are printed in **bold** font.

Please note that this amendment also incorporates the total possession limits for each radionuclide listed in your license, which you requested by letter Dated December 14, 2006, following our telephone conversation on December 4, 2006. This action is in accord with NRC policy, in support of security issues and also resulted in the deletion of former License Condition 22 which dealt with maintaining possession limits below that requiring decommissioning financial assurance, no longer applicable, with the listing of possession limits in License Item 8. This amendment also includes some minor modifications to License Condition 14.E, involving leak test criteria, in accord with our current standard license conditions.

Please review the enclosed document carefully. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly

M. Michl
