Division of Materials Licensing  
U. S. ATOMIC ENERGY COMMISSION  
Washington, D. C. 20545

Gentlemen:

LICENSE 29-13537-02G

Please replace the drawing 758-14-1 Isolite Pull Handle sent to you Dec. 29, 1969, with the enclosed drawing. The drawing sent to you earlier does not show the aluminum channel into which the self-luminous tubes are potted. Other features are the same.

We have, in fact, produced prototypes of both versions of this sign and found them satisfactory, but we are distributing only the version shown on the enclosed drawing.

Sincerely yours,

UNITED STATES RADIUM CORPORATION

O. L. Olson  
Director  
Nuclear Division
