Guards should be moved back to the 441 entrance of the TMI plant, it is a very basic step in the public safety and should be one of the primary concerns of homeland security. Even though the concrete barriers are in place, it does not stop terrorist from coming in on foot. If we have learned anything from 9/11 it is that terrorists will find a way, but we should be doing at least the basic steps to stop them.

Melanie Hartzell
