Dear Mr. Bell:

Confirming my telephone conversation of May 6, I am enclosing (1) copy of the Lockheed Electronics Company Invironmental Test Report for our 604 signs -- drawings of which you have received, and (2) drawings of the 616 sign, the 616-03-3 and 616-05-3. The last three digits of this sign really indicate the nomenclature screening on the face of the sign and have nothing to do with the physical construction.

We are seeking approval of the 616-03-3 and 616-05-3 as two specific types to cover all variations of nomenclature.

Very truly yours,

U. S. RADIUM CORPORATION
