Subject: #RIN3150-AG63

After 9/11, the determination of those intent on harming the US should not be under-estimated. Given the devastating consequences of a major radiation leak, all reasonable measures to protect our nuclear plants should be mandated.

In regards to TMI specifically, the presence of armed guards at the main entrance near route 441 should serve as a deterrent and in the event of an attack, perhaps enough of a delay to result in a successful defense of the plant.

Thank you,

Andreas and Catherine Wali
