Thank you for giving me the chance to voice my opinion of the security of TMI.

For the record I am a grandmother of six. Our four children were in school during the nuclear scare and I have my personal story... All these years, I have read every article written about TMI and I have watched and listened to others talking, I have my opinion...

to answer your question...

YES!!! security is needed at the front gate. Strong, visible, intelligent, no less than security at the Pentagon or White House.

I think that the NRC needs to keep a better watch on the clowns who are making decisions at TMI. I also think that the Public Relations Dept at TMI needs to cut their budget on nonsense PR and use the money for better security at TMI. What I read contradicts what I see happening.

Thank you for taking the time to read this.
